

Chemistry-I  
Chemical of the Week (COW)

You will use a website of your choice to research a different chemical element or compound each week. You will be responsible for information on the COWs for unit tests and your mid-year exam:

Week of: \_\_\_\_\_ to \_\_\_\_\_

COW name: \_\_\_\_\_

Symbol: \_\_\_\_\_

Atomic Number: \_\_\_\_\_

Atomic Mass: \_\_\_\_\_

PHYSICAL PROPERTIES:

m.p.

b.p.

density:

Color:

Others:

CHEMICAL PROPERTIES:

Tends to react with:

Does not react with:

HISTORY:

Discoverer:

Year of Discovery:

Any interesting facts regarding its discovery:

USES: List some common and/or interesting uses for the COW

TRIVIA/ CURRENT EVENT: List some "newsworthy" and/or weird facts about COW.

NOTE: for some COWS there will be teacher demo days or related labs where you need to record information.
